

FreshWell™ Absorbent Pad & Pouch Systems

FreshWell™ absorbent packaging systems improve freshness and extend the shelf-life of fresh-cut products. The technology absorbs excess fluid from products and is safely secured in the cells located in the back of the pouch or under the pad. Absorbent technology is safe for human consumption as it's a blend of food-safe materials that comply with FDA and EU food contact regulations.

BENEFITS

- Dramatic improvement of shelf-life, product quality and product integrity, resulting in increased sales and supply chain efficiencies while decreasing product waste
- Eliminates need for spin drying, resulting in improved yields and reduced product damage
- Significantly reduces dripping and spilling of excess product juices, which is a common customer complaint
- Compostable option certified for industrial composting

NEW! COMMERCIALLY COMPOSTABLE PADS & POUCHES

- Breaks down naturally during composting
- Certified for industrial composting (collected and processed with food and organic waste)
- Free of toxins and allergens

POUCH PRODUCTS

- FPP-110 Pouch - 1 lb. capacity
- FPP-215 Pouch - 2.5 lb. capacity
- FPP-440 Pouch - 5 lb. capacity
- FPP-880 Pouch - 8 lb. capacity

PAD PRODUCTS

- Multiple cell sizes for all absorbent needs
- Available in rolls, sheets or singles
- Configurations to fit most existing tray sizes
