

## FreshWell™ Absorbent Packaging Systems

FreshWell™ absorbent packaging systems improve freshness and extends the shelf-life of fresh-cut products for up to 12-14 days. The uniquely designed technology absorbs excess fluid from products and is safely secured in the bottom of the package.

### BENEFITS

- Removal of excess fluid results in the dramatic improvement in shelf-life, product quality and product integrity, resulting in increased sales and decreased product waste
- Absorbent technology eliminates the need for spin drying, resulting in improved yields and reduced product damage
- Absorbent trays integrate with Aptar slicing and sealing equipment
- Tamper evident — peelable lidding film options
- 100% polypropylene, recyclable

Highly absorbent food safe wells are built into the bottom of the tray

Highly absorbent food safe pad is sealed to the bottom of the container

### FOOD SERVICE PRODUCTS

- 1/4 Steam Absorbent Trays
  - FPT 1.4 (2.5 lb. capacity)
- 1/2 Steam Absorbent Trays
  - FPT 1.2 Shallow (1-2 lb. capacity)
  - FPT 1.2 Regular (3 lb. capacity)
  - FPT 1.2 Deep (5-6 lb. capacity)
- White or contact clear polypropylene
- Other sizes available upon request

### MINI CONTAINER PRODUCTS

- FPMC 2.5, 2.5 oz. Container
- FPMC 4, 4 oz. Container
- FPMC 6, 6 oz. Container
- Ideal for school/university cafeteria programs
- On-the-go packaging ideal for convenience and grocery stores
